

# Abdulvosid Foziljonov

Software engineer

## WORK EXPERIENCE

### MRTM software engineer

june 2021 - November 2023

65 Khiyabon Street, Margilan City, Fergana Region

- I was responsible for the development of the API part of the software and also participated in the development of the web and desktop parts of the project.
- As a result of my focus on project security and fast performance during software development, projects have been accelerated up to 1x

### Fenix team BeckEnd developer

August 2022 - September 2023

Coworking zone in the center of Fergana region, 2nd floor

- My task in the Fenix team was to create the BeckEnd part of the project in the development of the CRM system and web projects for the warehouse, educational centers

## PROJECTS

### EDU BeckEnd developer

August 2023 - Present

- An ongoing project at the Learning Center for students to register online for courses, get information about courses and choose a course that suits them

### Traveloo BeckEnd developer

June 2023 - September 2023

- It was a project aimed at making the registration process of customers who want to travel
